Line 1. **Total Participants**

Enter the total number of youth who participated in the JTPA Title II-B grant program and/or the summer employment opportunities component of WIA through the end of the report period (September 30, 2000).

"Participant", for reporting purposes, means an individual who has been determined to be eligible to participate in and who is receiving services under either or both of the two specified programs. Participation shall be deemed to commence on the first day, following determination of eligibility, on which the individual began receiving services.

Line 2. **Total Participants in Academic-Basic Educational Skills Enrichment**

Enter the number of JTPA Title II-B participants who were enrolled in academic basic educational skills enrichment activities. This includes participants who have such activities linked with work experience or as a stand-alone activity. This entry may not exceed the entry for Line 1.
This reporting item applies only to JTPA Title II-B participants (both those who terminate as JTPA participants and those who transition into WIA Title I participants on July 1). Those participants who register as WIA Title I participants and are never enrolled in JTPA Title II-B are not included in this line.

The definition of Academic-Basic Educational Skills enrichment means “the enhancement of the traditional educational skills of reading, mathematics, and writing attained through classroom or project-based learning methods.”

**NOTE:** For the number of youth in line 2, show the percentage of youth who maintained and youth who gained academic-basic educational skills of reading, mathematics, and/or writing during the summer reporting period. The results should be reported in the “Remarks” section. For example: Line 2: Maintained Skills - 78%, Gained Skills - 12%.

Although ETA is not recommending any particular testing protocol, pre and post testing is encouraged when assessing skill gain of youth. Service providers are encouraged to select assessment instruments that have been identified as appropriate tools for measuring basic educational skills attained in the academic enrichment component of the summer program.

Line 3. Total Number of JTPA Participants Terminated on or Before June 30, 2000

Under WIA an “out-of-school youth” means an eligible youth who is a school dropout; or an eligible youth who has received a secondary school diploma or its equivalent but is basic skills deficient, unemployed, or underemployed. A youth’s dropout status is determined at the time of registration. Therefore, a youth who is out-of-school at the time of registration and subsequently
placed in an alternative school, may be considered an out-of-school youth (based on proposed final regulations). However, a youth who is enrolled in an alternative school at the time of registration, is not considered a school dropout.
