

Data Validation State Reports Web Release 4.0.0 RELEASE NOTES

Release Date: April 2010

SUMMARY

Data Validation (DV) State Reports Web Software Release 4.0.0 has been installed on your system. This release contains a new web-based DV Reports application that generates detailed and summary reports of DV results submitted by states to the National Office through the DV software. The Data Validation Reports software implementation is based on the Data Validation Software, Versions 2.0 or higher, and it only includes data from Validation Year (VY) 2009 on. It was developed for the Internet Explorer 6.0 or higher browser.

There are menu options for two types of Reports:

1. The Results by Validation Year report will display population and DV Item Scores for all populations by State and Validation Year.
2. The Results by Population report will display detailed scores for DV items by State, Population and Validation Year.

Feature Type	Description	Path
Results by Validation Year	<ul style="list-style-type: none"> • Provides ability to query results by validation year for Benefits and Tax. • For the Benefits Reports, it displays the following data columns: Population, Population Description, Population Score, Submitted On, Reporting Period, DV Item, DV Item Description, Score • For the Tax Reports, it displays the following data columns: Population, Population Description, Population Score , Submitted On , Reporting Period, DV Item, DV Item Description, Score 	Applications Menu → Data Validation → Data Validation Reports → Results by Validation Year
